Let NEW customers view your product range and place orders whilst EXISTING customers have the option of placing return orders at their price, at their convenience.

Let Web Ninja entice customers long after your doors closed for the day. Use your online store to promote new product offerings, run special offers on older product lines and keep you customers well informed and loyal.

### It is as easy as linking your existing accounting software to Web Ninja!

Web Ninja will automatically upload and update products, orders and payments in your online store through your accounting software.

Keep entering your customer, product and pricing information into your accounting application and let Web Ninja take care of the rest. No more duplicate data entry of products, pricing and orders.

We have been creating business applications for over 20 years and have 100's of reference sites. When you add up the costs associated with your premise, wages and marketing, a Web Ninja online store may be the most cost effective decision your business makes this year.
